

THE SALISBURY HISTORICAL SOCIETY ROUND ROBIN

The study of history can be more than an accumulation of dates and events. Through an examination of the life and times of our predecessors we can discover their thought processes, ways of interacting with each other, belief systems, creative efforts, struggles through trials and tribulations and efforts at problem solving. We can gain insights into why things are as they exist today. It can enhance in us a sense of our own place in time and create a sense of perspective.

One of our goal is to instill an appreciation of our town's history in our young people through an interesting and fun format. In turn, we hope their enjoyment of history will pass onto the following generations the stories of their town and its people, our state's history and perhaps our nation's as well.

The Salisbury visit entails a guided walk through our Museum, Meeting House and the Old Baptist Cemetery behind the Meeting House for the Cemetery Walk.

The morning culminates with a noontime picnic, playing of traditional games on the Salisbury Town Green and a group photo.
