PUBLIC NOTICE:

Town of Salisbury Winter Maintenance Policy

Snow Plowing: Town begins plowing when the snow has accumulated 2 to 3 inches. After roads are clear, sanding and salting will begin.

Winter Freezing Rain Storm: It is important to note that salt or sand is wasted if applied before rain stops. There is little the Highway Department can do during a freezing rainstorm. However, as soon as the rain stops, salt and sand will be applied to the roads.

Clean Road Policy: The Town of Salisbury does not have a clean road policy. In other words, all roads and streets will not be kept completely clear of snow and therefore only caution can be advised for winter driving. Salt will be used sparingly. Dirt roads will be sanded, but with ice under the sand, it still makes instant stops impossible.

Plow Routes: Each plow route is approximately 15 miles long and takes 3 to 4 hours to cover. So if plowing is started with 2 inches of snow, by the time the vehicle finishes the route 3 or 4 hours later, there could be up to 6 inches of snow on the first part of the route. Therefore, during a heavy snowstorm, at times, there will be snow on the roads.

Snow Removal Operations – Limited Parking: Pursuant to RSA 41:11, on December 8, 1997, the Town of Salisbury adopted two regulations governing the use of public highway during snow removal operations. Be advised that from NOVEMBER 1 to APRIL 1 no person may park any vehicle upon any way in the Town of Salisbury. Permitted exceptions may be made in advance, upon notification of the Road Agent. Also, that no person may deposit any snow or ice upon the surface of the traveled portion of any way in the Town, which may interfere with or obstruct Town snow removal operations. Any person who violates these regulations shall be subject to a penalty not to exceed \$50 for each offense, with each day of violation constituting a separate offense. Towing costs to be incurred by owner of vehicle.

Mail Boxes: The Town of Salisbury or its agents do not replace damaged mail boxes. Road Agent should be contacted for proper placement of mail box.
