All agreed the upcoming meeting the Merrimack Community Power Committee on May 2, 2024 9:30 a.m. in Boscawen will provide information that will answer many questions and concerns. Lorna Carlisle and Kevin O'Neill plan to attend. Eric Swendsen will attend if his schedule allows.

Lorna Carlisle will ask if they will have a recording that could be shared. We assume since there is a Zoom option to attend that a recording can be available.

General discussion: how to opt-in or opt-out? Way to verify what the rate should be but also the rate of our current suppliers such as Eversource, Unitil and the Electric Co-Op so we can compare.

It was also suggested we could meet with the town of Webster since they have just gone through this process.
